Mashaer Alali
Meera Alketbi

PROJECT OVERVIEW

What is InternTrack?

A web-based platform to streamline internship posting, applications, tracking, and evaluations.

The screenshot displays the InternTrack Employer Dashboard. On the left, a sidebar includes the logo, navigation links for 'Employer Dashboard', 'Internships', 'My Profile', and 'Notifications', and a user profile section for 'ah' (ayesha@gmail.com) with a 'Logout' button. The main area is titled 'Employer Dashboard' with the subtitle 'Review and manage internship applications.' It shows summary statistics: 'Pending Applications' (13), 'Approved' (4), and 'Rejected' (2). Below this, the 'Internship Applications' section lists three entries under 'Unknown Student'. Each entry provides basic information: 'Student ID: N/A', 'Position: N/A', 'Company: N/A', and two buttons: 'Accept' (green) and 'Reject' (red). The last entry is partially visible.

OBJECTIVES

Our Goals

01

Internship Posting

02

Coordinator Monitoring

03

Secure Login

04

Application Tracking

NEXT

MOTIVATION

Why this Project?

70%

Of Employers

prefer centralized digital platforms over email-based application handling.

NACE (National Association of Colleges and Employers), 2023 Employer Survey.

60%

Of Universities

still use manual processes for internship management.

AAC&U Internship Experience Report, 2022.

57%

Of Institutions

report difficulty tracking student progress effectively.

NACE Recruiting Benchmark Report, 2023.

52%

Of Students

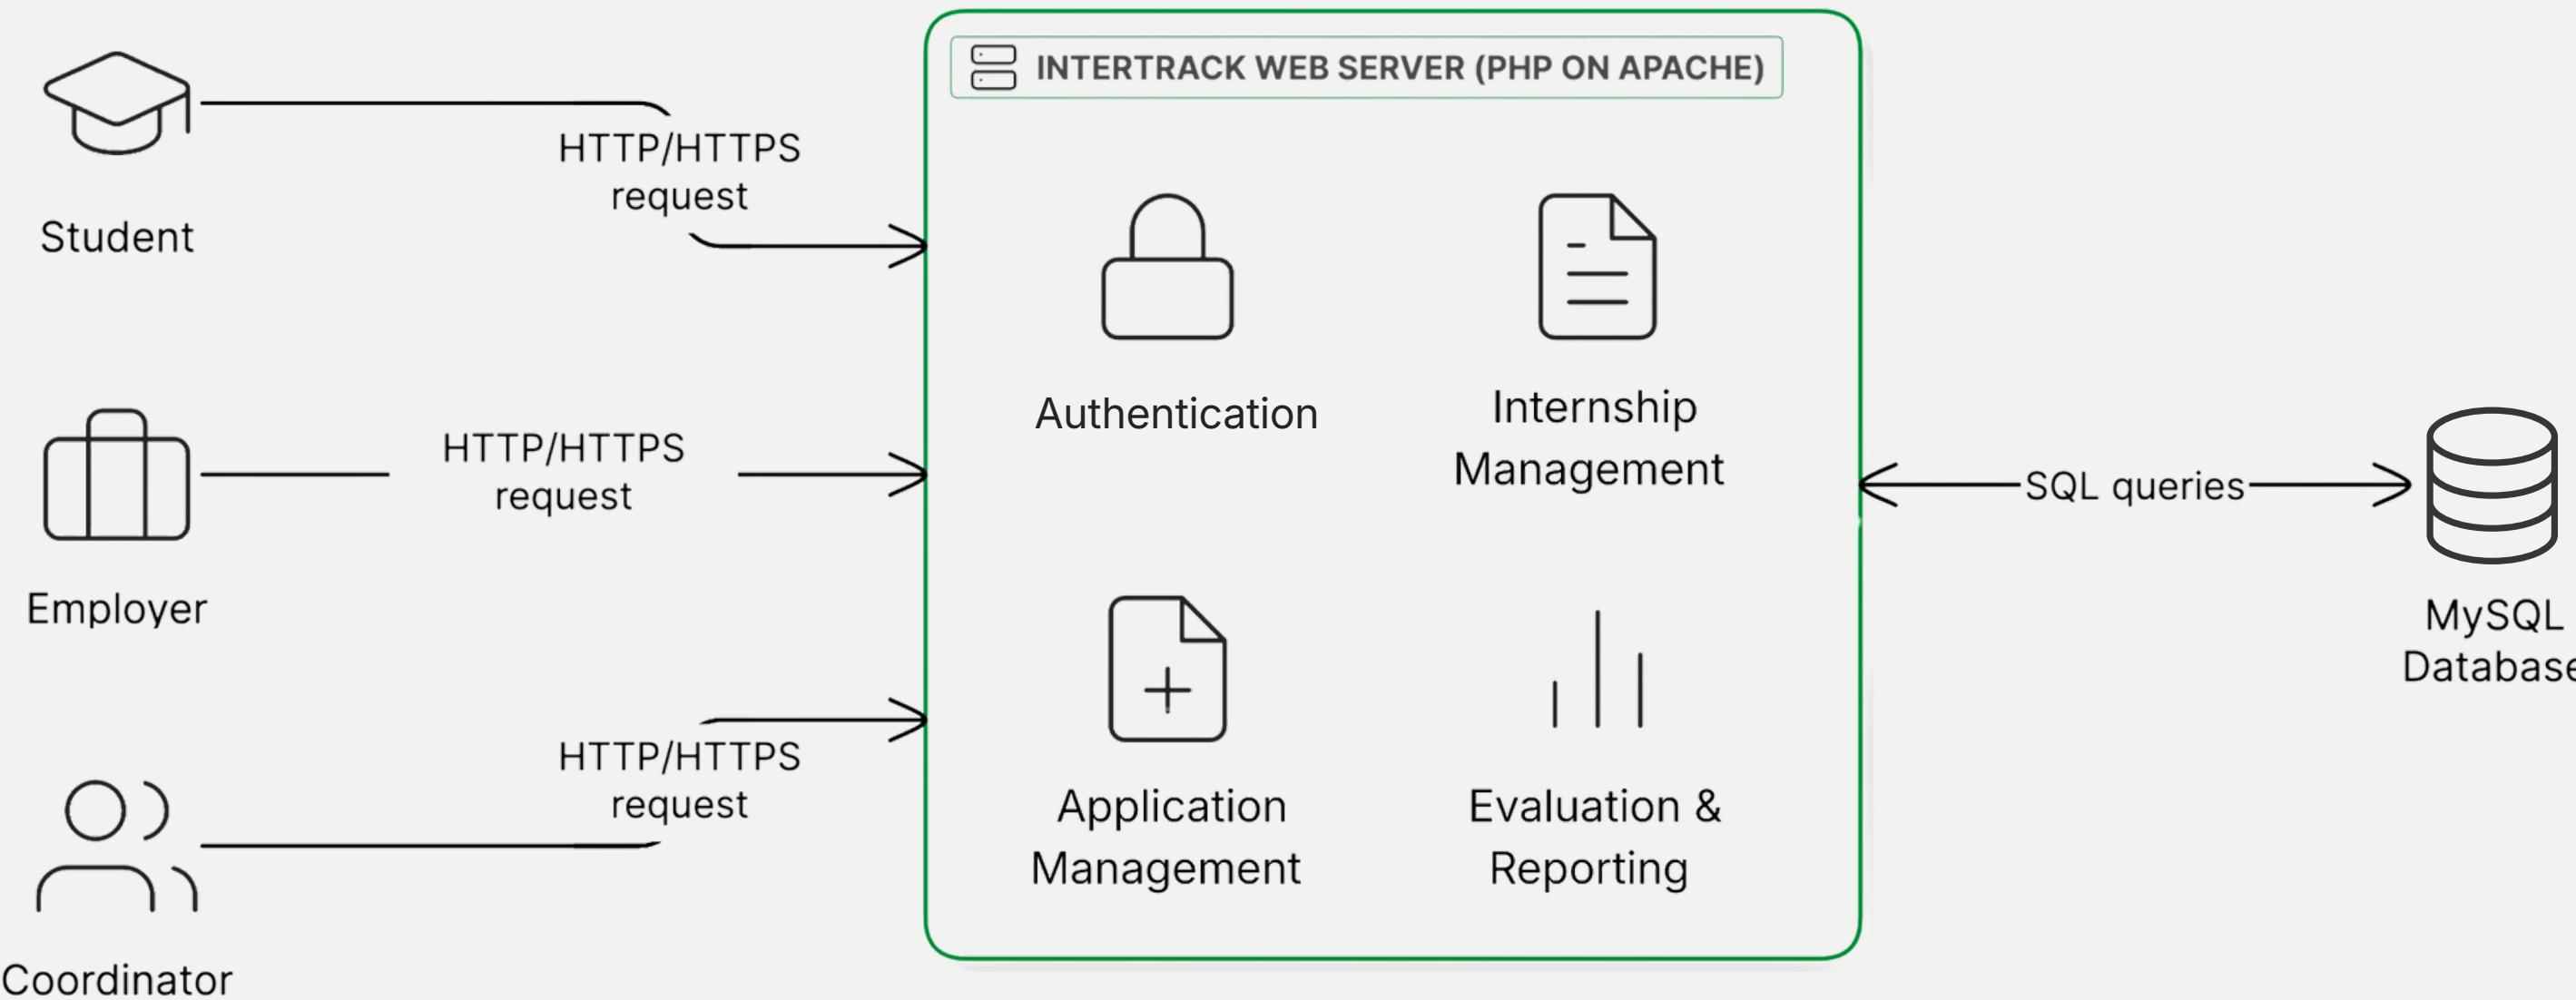

say internship communication is unclear or delayed.

EDUCAUSE "Digital Transformation in Higher Ed" Report, 2023.

SYSTEM ARCHITECTURE

How does the System Works?

NEXT

IMPLEMENTATION

Development Steps

- 01 Planning & Designing
- 02 Database Preparations
- 03 Backend Logic
- 04 Frontend Development
- 05 Integration of Modules
- 06 Testing & Debugging

NEXT

RESULTS

What We Achieved!

01

Fully Working System

The platform operates smoothly with all core features functioning as intended

02

Clean Dashboards

Users get simple, organized dashboards that make information easy to understand.

03

Secure Data Handling

All data is stored and managed safely using proper authentication and database security.

04

Improved Internship Management

The system streamlines tracking and documentation for a better overall process.

NEXT

FUTURE IMPROVEMENTS

Conclusion

- Enhances clarity, communication, and real-time tracking.
- Saves time and reduces administrative workload.
- Automated email notifications, an analytics dashboard, and a mobile app will all be offered in the future.
